MEMORANDUM

SUBJECT: Proposed Plan and Draft Modification of Colorado
Hazardous Waste Permit for Rocky Flats Plant--Operable
Unit 16: Low Priority Sites

FROM: Arturo Duran, RPM, Rocky Flats Team *Arturo*

TO: Bob Duprey, Director, Hazardous Waste Management
Division

The purpose of this memorandum is to request your concurrence on the attached Proposed Plan for a "No Further Action" decision for the Low Priority Sites, Operable Unit (OU) 16 at Rocky Flats Plant. DOE is the lead agency and as such, intends to issue the Proposed Plan for public comment. Documentation supporting the "No Further Action" decision was provided to EPA and CDH from DOE, which was titled, *No Further Action Justification Document*, October 1992. EPA and CDH reviewed the information presented and agreed that "No Further Action" is required for five (5) of the seven (7) sites within OU 16. However, it is the opinion of EPA and CDH that more information is needed for the remaining two (2) sites. Further investigation on these two sites will be conducted in concordance with field investigations for other OUs.

This Proposed Plan briefly explains the nature of the sites considered and the basis for the decision. We are planning to open a Public Comment Period on October 19, 1993, lasting 60 days. A Public Hearing has tentatively been scheduled for November 16, 1993. We anticipate that DOE will issue a Record of Decision and Responsiveness Summary for this OU by February 1994. Do not hesitate to contact me at 294-1080 with any questions you may have. Please advise if you would like a briefing on this matter.
